FABII, ōrum, m. *the name of a very distinguished Roman* gens; the one who was first called by the name of Fabius, at a time when nearly all the Romans were employed in agriculture, was probably noted for the cultivation of *the bean* (faba), and hence his name was derived. The mother of the first Fabius is said to have been the daughter of Evander, and his father, Hercules; hence, *Silius* uses the expressions *Tirinthia proles* and *Herculei*. — The family of the Fabii was so numerous, that they alone, with their clients and slaves, undertook a war against the Veientes: they were, however, after some slight successes, overthrown by the Veientes, and entirely cut to pieces, not one of the number, which was 306, being left alive. The whole family would thus have been extinct, had it not been that one, who was not of suitable age to bear arms, had been left at Rome: from this one, by a long line of posterity, was descended Fabius Maximus, the dictator in the war against Annibal.

FABIUS PICTOR, *a Roman patrician, well skilled in civil law, literature and antiquities*, is quoted by *Plin., Liv., Gell., &c.*
